PMI Portfolio Management in Manufacturing

Capital efficiency, plant modernization, and delivery governance

PMI | Manufacturing

What you will gain

â¢ Prioritize modernization investments with portfolio scoring
â¢ Improve delivery governance across plants
â¢ Align leadership on value-based initiatives

The Learning Curve
Keep learning, keep growing.

Executive summary

Manufacturers face pressure to modernize plants while controlling capital spend. Portfolio management discipline ensures investments align to strategic outcomes.

This playbook outlines how PMI-based governance and training helps leaders deliver modernization programs on time and on budget.

Outcome focus

â¢ Higher ROI per modernization initiative
â¢ Reduced delivery variance
â¢ Improved resource utilization

Enterprise learning leaders are investing in AI fluency, cloud modernization, and governance readiness. These signals frame the urgency and scale of adoption across industries.

â¢ 60% â of workers require training by 2027
â¢ 44% â of worker skills will be disrupted in the next five years
â¢ 78% â of organizations use AI in at least one function
â¢ 71% â of organizations use generative AI in at least one function
â¢ $675B â public cloud spend forecast in 2024
â¢ $4.88M â average cost of a data breach

Leadership teams need a measurable learning plan that balances speed, governance, and adoption across the enterprise.
